Ventura County businesses staring down host of new restrictions

Free clinic receives \$10K boost

November 26, 2020

Westminster Free Clinic in Thousand Oaks is the recipient of a \$10,000 grant from AmeriCares to buy critically needed personal protective equipment, medical supplies and offset the cost of lab testing services.

AmeriCares is a global health-focused relief and development organization that works to save lives and improve health for people affected by poverty or disaster.

The clinic, which provides healthcare and other services to uninsured individuals in Ventura County, has stepped up its efforts since the outset of the pandemic, distributing food, school supplies, dental kits and gift cards to families in need.

WFC was among 25 grant recipients around the country that received funds from AmeriCares.
